BOOKS Psicólogos f YouTube R[®] Suscríbete

Clottic psychology and health has experienced major advances in recent years. Clinical psychogy expanded its field of action, addressing the behavioral aspects of various orgial disorders and their prevention, as well as health promotion. This manual is a clear sample of these important advances. The book is structured in four major sections: conceptual and methodological structure, clinical psychology, behavioral medicine and health psychology, collecting the most important evaluation techniques for each of the disorders. Fifty specialists in Spanish and foreign participate in the book that make it a significant exponent of what is currently happening in the broad field of clinical psychology, behavioral medicine and health psychology. Topics are treated with an eminently applied approach, so it is a practical manual for students and health science professionals. Gualberto Buela-Casal holds a degree in psychology from the University of Santiago de Compostela and Doctor of Psychology from the Autonomous University of Madrid. You specialize in psychological, psychophysiology and health psychology. He is the director of books advances in dream research and its disorders, applied clinical psychology manual, psychopathology manual and psychiatric disorders and psychological evaluation manual and author of human intelligence books, dream disorders (in collaboration with J. C.) and anti-social behavior (in collaboration with A. E. Kazdin). He is director and founder of the Journal of Behavioral Psychology. He is currently teaching psychological and psychophysiological clottic evaluation at the University of Granada. Vicente E. Horse is a doctor in psychology at the Autonomous University of Madrid. NoHe is a professor of psychopathology at the ... Gualberto Buela Casal| Carlos Sierra Vicente e Horse3.476 Increase in total if you want you can get a copy of the book in PDF and EPUB format. Next, we show a list of direct discharge sources available: Download PDF / EPUB Book Available in 2 Stock Libraries in Libraride Available in 2-3 days Search Libraries around you Synopsis The closing and health psychology has experienced great advances in the last years. The clinical plaques has expanded its action field by addressing the conductive aspects of various organic disorders and their prevention, as well as the health promotion. This manual is a clear sample of these important advances. The book is structured in four great sections: Conceptual and Methodological Marco, clinical psychology, behavioral medicine and psychology of health, collecting the most important evaluation techniques for each of the disorders. Fifty Spanish and foreign specialists participate in the book that make it a significant exponent of what is happening atually in the wide field of clinical clinics, Medicine driving and health psychology. The topics are treated with an eminently applied approach, so it is a practical manual for students and health science professionals. Gualberto Buela-Casal has a degree in Psychology from the University of Santiago de Compostela and Doctor in Psychology from the Autonomous University of Madrid. He is specialized emics of Avaliaãšã E or psychological, clinical psychophysiology and psychology of health. He is the co-director of the books advances in the research of the dream and their disorders, applied clinical psychology manual, psychopathology manual and psychiatric disorders and manual of Avaliaãšã E or psychological, and author of the books Human and dream disorders (in collaboration with J. C. Sierra) and anti-social conduct (in collaboration with A. E. Kazdin). He is director and founder of the Journal of Behavioral Psychology. He is currently teaching psychological and psychophysiological clottic evaluation at the University of Granada. Vicente E. Horse is a doctor in psychology at the Autonomous University of Madrid. He is currently a professor of psychopathology at the University of Granada. The Technical Manual for the Therapy and Behavior Modification (1991) was directed by Professor V. E. Horse, also of the Social Skills Assessment and Training Manual (1993) and Co-Director of the Manual of Psychopathology and Psychic Disorders and Trichos Psychic Disorders (1995). He is the founder and director of the Journal of Behavioral Psychology. Behavioral therapy techniques, interpersonal relationships and personality disorders are currently monopolized by your researcher and teacher. J. Carlos Sierra is a degree in psychology from the University of Santiago de Compostela and Doctor in Psychology from the University of Granada. His interests as a researcher and teacher focus on the field of human sexuality and the evaluation of dream disorders and the residual effects of the pharmacological treatment of these disorders. He is co-author of the book Suenom Disorders (1994) and several works in international journals on activation and surveillance evaluation. He is currently a professor at the Faculty of Psychology of the University of Granada, where he teaches psychological evaluation.
